

- Punches notched grooves in sheet steel up to 2.0 mm thick simply and quickly (S235).
- Saves time-consuming filing of grooves for non-twist securing of pushbuttons, switches and instruments.
- Notched grooves possible in sizes of 3.2 mm and 4.8 mm.
- Replaceable notched groove punch.
- Easy punching due to large lever arm.
- Plastic-coated handle.
- Weight 1.3 kg.

Prod.-No. 03015

The notched groove punch is introduced to the pre-punched opening, aligned to the crosshair markings and then the notched groove tongs are actuated.

Your clean groove is finished!
